2	<i>Version incompatibilities</i>	2
2.1	V5.02 is no longer compatible with Windows 98.	2

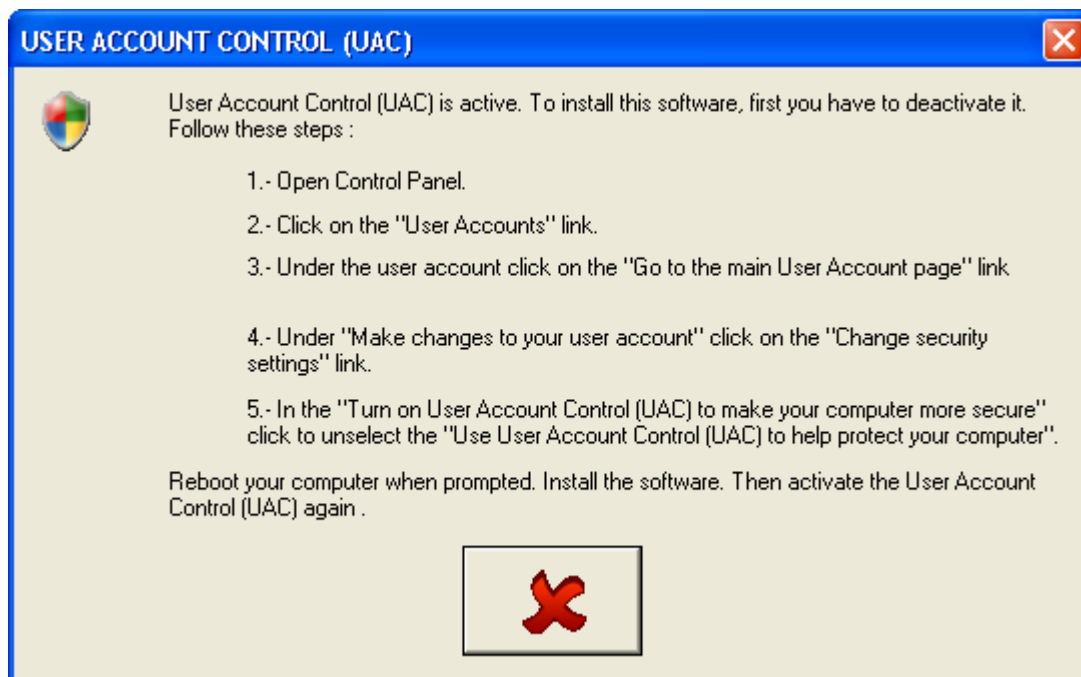

1 NEW FEATURES

1.1 It supports Windows Vista

If the operating system is Windows Vista and the control of user accounts is active, the Windnc installation shows the following warnings:

FAGOR  Fagor Automation	New Software Features WINDNC (V05.02)	Date: Oct. 20, 2010
	From: CNC Marketing Department FOR: Fagor Automation Network + Service Centers	Page 2 of 2

1.2 It supports the FL and Power models.

This version may be connected to the new CNC models 8055 FL and Power and can work via telediagnosis.

It also supports the new look of CNC models 8055 FL and Power.

1.3 PAN, WGD and SIM screen customizing files may be deleted and read

Using the "DEL" key, the selected PAN, WGD and SYM files may be deleted.

PAN, WGD and SYM files may be transferred from the CNC to the PC.

"WGD" files will no longer appear next to "PAN" files and a new "WGD" icon will appear for selecting "WGD" files.

Delete and Read functions are only available for the new CNC models 8055 FL and Power.

2 VERSION INCOMPATIBILITIES

2.1 V5.02 is no longer compatible with Windows 98.
